

Student User Agreement

Overview

Sacred Heart Girls' College believes in using a digital citizenship model to support safe, responsible and ethical use of digital technology and online spaces as it helps both our physical and online environment to be a positive place for everyone.

This agreement outlines Sacred Heart Girls' College's role in promoting the use of digital technology and online spaces for learning and supporting online safety approaches. It also outlines expectations and responsibilities of students as a member of our community. It will also be used to support discipline processes when necessary.

The Role of Sacred Heart Girls' College

Sacred Heart Girls' College recognises a student's right to receive a high-quality education in a safe online and offline environment. We will do this by:

- providing information and support to ensure you are aware of, and able to meet, your responsibilities
- teaching a curriculum that promotes positive online safety behaviours
- overseeing students' use of the school's/kura digital devices and platforms
- using filtering software to minimise access to inappropriate online content
- allowing the use of technology for personal reasons as long as it does not negatively impact on self and others
- supporting students who need help dealing with online incidents
- taking action when a negative online experience occurs between students even if it takes place outside of school hours
- securing the personal information the school collects about you
- protecting your freedom of expression under New Zealand's Bill of Rights
- having a plan in place to support students when something serious or illegal happens. This might include getting in touch with the Police or Netsafe.

YOUR RESPONSIBILITIES

As a student of Sacred Heart Girls' College and a member of our community, it is expected that you will positively contribute towards making our school/kura a place that is safe, respectful, and fair, both online and offline. This means enacting our school values in physical and online spaces and helping to shape a positive online culture. This is being a 'digital citizen'. As a digital citizen, you will:

- **Keep it positive.** Always respect others online and communicate in a constructive way. Do not create or publish content that is indecent, threatening or offensive.
- **Protect privacy.** Do not disclose sensitive personal information about yourself or another person in any digital communication. This includes sharing passwords, accessing devices or online sites belonging to others without consent and taking screenshots and sharing this content without consent.
- **Act cautiously.** Anything you post or do online can influence what people think of you. Likewise, always think carefully about whether the information you see online is true. If you are unsure of something talk to a teacher.
- **Avoid online bullying.** Creating or forwarding content that is harmful, inappropriate or hurtful is never okay at any time, and may breach legislation (The Harmful Digital Communications Act). If you are harassing people by sending multiple messages this is also considered online bullying and is unacceptable.
- **Be security smart.** Keep personal information safe and secure by using strong passwords and not sharing them with others. This includes not accessing devices or online sites belonging to others without consent, nor taking screenshots and on-sharing their personal content without their knowledge and permission.

- **Check consent.** Before downloading software to the school network or onto devices, seek permission. Interfering with the school systems, digital technologies, equipment/network or the online security of another person is never okay at any time.
- **Recognise others work.** Follow copyright and intellectual property requirements by attributing references, images, text, audio and video appropriately.
- **Respect the rights of others.** Only record and share video, photo or audio content if the people in it know it has been taken and have provided their consent.
- **Be ready.** Be ready to work with your device at school, fully charged, every day.
- **Respect physical presence.** If someone is giving you their attention, speaking to you, give them your attention. Remove earphones, lower the cover of your device. Be present.
- **Respect different boundaries.** Know that people have different levels of comfort with technology and therefore their expectations and rules around its use will be different to others. This includes friends, family and teachers. You need to respect the individual and their boundaries.
- **Seek help.** Sometimes you or someone you know will feel unsafe or come across inappropriate or hurtful online content and behaviours. If this happens talk to a trusted adult about what can be done, or contact Netsafe directly.

ONLINE INCIDENTS

Despite the advantages technology offers and people's best intentions, sometimes there will be challenges and risks within an online community – either accidentally or on purpose. Sacred Heart Girls' College is committed to supporting you if something goes wrong online.

Online bullying. Incidents of online bullying or harm will not be tolerated at our school/kura. If you or somebody else is being bullied or harmed online, it's never okay at any time. This type of harm doesn't usually just go away. It's important to keep the evidence of what is happening to you or someone so this can be investigated. Don't put yourself at further risk by continuing any contact with the person or people who are bullying online or creating harmful or hurtful content. It's very important to let someone at school know what's happening so you can get the right help and support you need. You should also consider talking to a trusted adult like your parent, your whānau or guardian for support.

Report a problem. You should report an online incident or if you suspect something is happening online as soon as you can to a teacher or Dean. Once the school is made aware of a problem, they will assess the problem and work to resolve it.

Online safety support. Netsafe is an online safety organisation that is also available to help. They provide free confidential advice seven days a week for all online safety challenges. They can be contacted on 0508 638723 or online at [netsafe.org.nz](https://www.netsafe.org.nz)

SMART PHONE

Despite the advantages of smart phones, there is not a need to use them during lesson times. It is a school expectation that smart phones are in school bags, on silent and do not disturb, for the entire school day. They are not to be taken out at any stage during the school day.

Students are to respect staff request to put smart phones in their bags or in the phone box.

STUDENT DECLARATION

I am aware of the expectations, behaviours and values required of me when I use digital technologies at school, any online tools and platforms, and the school's systems and network. I understand these apply to all devices used at school whether they are owned by school or if it is my personal device.

I understand I have the right to use and experience online environments and digital technologies in positive ways and that others do also. With these rights, come responsibilities.

I understand and agree to support and uphold these expectations and responsibilities outlined in this agreement.

I understand and agree to not use my smart phone at school, and have it in the phone box or in my bag at all times during the school day. I will have my smart phones on silent during the school day.

I know that if my actions or behaviours do not align with the User Agreement there may be consequences. This may include the loss of access to the internet on school owned devices or personally owned device used at school.

PARENT/ WHĀNAU/ GUARDIAN DECLARATION

I know that if my daughter behaves or acts in ways that do not align with those detailed in the User Agreement there may be consequences which the school will talk to me about.
